

PureWaterCooler™

by VERTEX®

Stylish 2-Temp Water Cooler

Hot and cold bottle-less cooler with integrated cupholder, taller cabinet and large dispense area

The Vertex **PureWaterCooler™ PWC-4500** is an upscale 2-temperature bottle-less cooler that uses the existing water source to make a continuous supply of clean, great tasting water for up to 30 people. The 2-temperature single dispensing faucet comes with a dual-button Hot Water safety feature and the pressurized dispense system creates a faster flow of water. The LED lighted, 10" tall opening allows easy refill of large water bottles and mugs

Two Temperatures

- Hot and Cold

Special Features

- Taller 10" opening allows easy access for refills
- Pressurized Dispense system for faster flow
- Cold 37 - 50°F, adjustable.
- Hot 180°F, auto control.
- High efficiency sealed compressor.
- Attractive LED lighted dispense area

Standard Features

- Single dispensing faucet with HOT and COLD button control
- Dual button safety feature for HOT
- Solenoid valve inlet water control
- Indicator lights on front panel for heating and cooling
- On/off switch in rear to control hot and cold functions
- 1 year limited warranty - 3 year compressor warranty
