Stay Safe with Hands-Free Operation

Keep employees safe using foot-switch for dispensing cold water.

PWC-1800PD

We've updated our most stylish 2-Temp water cooler with a foot-switch for hands-free cold water dispensing. There is no need to touch the cooler – simply place a glass, mug or bottle in the fill area, hold the foot lever down and watch the chilled water fill your glass. When full, release the foot lever, take your glass and go! (Hot water dispense requires button push).

The control panel operates normally for Hot & Cold water. The foot-switch is mounted to a bracket, fastened to the bottom of the cabinet. The door swings free for easy filter replacement or storage. Some assembly required.

ORDERING INFORMATION

2-Temp Model with foot-switch - 50 GPD Reverse Osmosis	PWC-1800PD/R
2-Temp Model with foot-switch- Standard Filtration	PWC-1800PD/F
